

## Connor R. Forsythe, Ph.D.

Mustang, OK | Phone: (405) 830-5706 | E-mail: connorforsythe@cmu.edu

### **EDUCATION**

**Carnegie Mellon University, Pittsburgh, PA**

August 2018-August 2023

**College of Engineering**

Ph.D. in Mechanical Engineering

Thesis Title: *Econometric Estimation of Consumer Responses to Personal Transportation Policies and Technologies*

Advisors: Jeremy Michalek, Kate Whitefoot

Committee Members: Ken Gillingham (Yale University), Akshaya Jha (Carnegie Mellon University)

QPA: 3.80/4

**The George Washington University, Washington, DC**

August 2014-May 2018

**School of Engineering and Applied Science**

B.S. in Systems Engineering

GPA: 3.97/4

**Honors:** Graduated summa Cum laude, Top of Class

### **RESEARCH EXPERIENCE**

**Vehicle Electrification Group – Jeremy Michalek,**

August 2023-Present

**Whitefoot Research Group – Kate Whitefoot**

**Department of Engineering and Public Policy**

*Post-Doctoral Researcher*

- Working with research teams to better understand the policy-related impacts of extended vehicle life on vehicle usage behaviors, US consumer electric preferences over time, autonomous grocery delivery, and Transportation Network Company (TNC)-related policy impacts leveraging econometric identification techniques. Additional work done expanding discrete choice modeling techniques with machine learning.

**Carnegie Mellon University:**

**Vehicle Electrification Group – Jeremy Michalek,**

August 2018-August 2023

**Whitefoot Research Group – Kate Whitefoot**

**Department of Mechanical Engineering**

*Graduate Research Assistant*

- Working with research teams to better understand the policy-related impacts of extended vehicle life on vehicle usage behaviors, US consumer electric preferences over time, autonomous grocery delivery, and Transportation Network Company (TNC)-related policy impacts leveraging econometric identification techniques.

**The George Washington University:**

**SzajnLab - Zoe Szajnfarter, Gralla Lab – Erica Gralla**

January 2017-May 2018

*Undergraduate Research Assistant*

- Worked with a research team to further understand the relationship between product architecture and design team architecture.
- Created data collection and analysis tools as well as collected and analyzed data to find communication patterns present in concurrent design teams.

## **TEACHING EXPERIENCE**

### **Carnegie Mellon University:**

*Graduate Teaching Assistant for Engineering Optimization*

Spring 2020-Fall 2020

- Lectured on nonlinear programming topics and relevant implementation methodologies
- Held office hours, helped in construction as well as preparation of assignments and teaching materials.

### **The George Washington University:**

*Undergraduate Teaching Assistant for Systems Thinking and Policy Making*

Fall 2017

- Participated in a teaching team that taught students the fundamentals of systems thinking as well as methods and software necessary to implement systems dynamics models.

## **SERVICE**

### **Review Service**

- Reviewed and contributed to reviews of articles for the USAEE North American Conference, Transportation Research Board Annual Meeting, Transportation Research Part A and D, and Environmental Research Letters

### **Lab Mentoring**

- Engaged in lab mentorship helping students understand fundamentals of statistical inference, discrete choice analysis, and nonlinear programming

### **Graduate Student Service**

- Regularly served to provide feedback and support to first-year Ph.D. students in preparation for their research and subject-matter qualifying exams
